

Child Be Safe™
www.childbesafe.com

OUR MISSION IS TO ELIMINATE AVOIDABLE CHILD & PET INJURIES

Children have the highest risk for injury and accidents. More than 3.4 million children experience an unintentional injury every year. Nearly 90% of babies and toddlers who suffer these types of injuries are under the age of six years old.

Biography of Child Be Safe:

Shortly after the birth of their twins, Kelly and George Melistas began to baby proof their home. No matter what safety products they purchased, nothing seemed to curb their twins' curiosity with electrical outlets and light switches. It was the one thing that truly scared them in their home and had little control over it.

As a Child and Adolescent Psychologist (Kelly) and Civil Engineer (George), helping people and solving problems has always been in their DNA. They knew that we weren't the only parents experiencing this issue and that a solution had to be out there.

As a Child and Adolescent Psychologist (Kelly) and Civil Engineer (George), helping people and solving problems has always been in their DNA. They knew that we weren't the only parents experiencing this issue and that a solution had to be out there.

After working with local, Michigan-based suppliers and gaining two United States patents, Child Be Safe Outlet and Switch Covers were born! They want parents to have peace of mind that their children are protected when their eyes aren't always on them.

Recently they outfitted our Child Day Care Center located within the Dow Bay Area Family YMCA with their "life-saving" child safety products. Check out the attached pics of one of the day care classrooms that was outfitted with their products. Thank you so much Child Be Safe!

Child Be Safe sincerely appreciates your support of "MADE IN USA" products and small business!

Please spread the word to your friends and family! To learn more and to purchase their products, please visit: www.childbesafe.com

Stay Safe!
